Form1

CITCE| Introduction to Graduation Project| Hardware Report Evaluation

Project Title:	Date:
Examiner Name:	Time:

Criteria	A	B	C	D	
Abstract	Contains clear motivation, scope and methodology.	Contains most of them in a clear way	Contains some of them or not clear enough	Totally not clear or does not contain any of them	
Introduction	Contains overview, motivation, scope of the project, objectives and literature review	Contains most of them in a clear way	Contains some of them or all but not clear	Not clear or does not contain any of them	
Background	Clear definitions and description of all the elements needed	Unclear description but all elements exist	Some elements are missing	Most of the elements are missing	
Requirements	Problem specific, clearly described, complete and measurable	Problem specific, not complete, or not clear enough	Too general requirements or partially not measurable	Totally not clear	
Design Options	The report presents a set of arguable design alternatives and justification on the selected one	The report presents limited arguable design alternatives and justification on the selected one	The justification is not rational	There are no design alternatives	
General Hardware Design	The requirements are completed reflected in the design,Block diagrams or general illustrations	The requirements are mostly reflected in the designy. Diagrams have some mistakes	Only partially available	There is a major gap between design and requirements	
General Software Design	There is enough explanation of the system software design	Software design is shallowly explained	Poor software design	Not present	
Language	The language in the report is excellent and typo free	The language is very good and few typos	The language is acceptable but contains many typos	The language is not acceptable	
Layout	The structure, sectioning and numbering are suitable throughout all the report.	The structure, sectioning and numbering are suitable most of the time	The structure, sectioning and numbering are not consistent	They are ill and needs major work	

Notes:
